INTERNET FOCUS

Thunderstorms may damage electronic equipment without surge protectors. If you are going to be away from the house for a long time period, make sure you unplug the power cord and the ethernet cords. This will help avoid damage to equipment. Please call & speak with our IT Guys if you have any questions regarding this topic.

INTERNET TIP

Email Phishing is the criminally fraudulent process of attempting to acquire sensitive information by masquerading as a trustworthy entity. Do not give out your username, password or credit card over email-call the company in question to verify first.

SECURITY TIP

Football and Marching Band are coming up soon. Many people have signs indicating that a member of those groups live at the residence. As these signs display how proud you are of that family member, they are also an advertisement to a burglar that you are not home on that Friday or Saturday night.

If your remote is not functioning correctly, first please try changing the batteries. If you need help programming it, [click here](#).

CPI CUSTOMERS WITHOUT A CONVERTER BOX

If you use a Digital TV without a converter or CableCard, you will need to rescan your TV on occasion in order to view the affected channels. If you would like to be notified by email when we add new channels, and therefore need to rescan your TV without a box, please [click here](#).

Call before you dig! You must contact OUPS (dial 811) 48 hours before you dig. If you do not and you mistakenly cut any utility line, pipes, etc...you will be responsible for the cost to repair any damages.
